

Infosys Recruitment Strategy Guide (2025–2026)

1. The Hiring Process (Nuances) HackWithInfy and InfyTQ are becoming the primary gateways for high-package roles. Infosys may conduct a Behavioral/Psychometric Assessment after the online test. Practice coding without autofill assistance to match the Infosys Assessment Platform (IAP) environment.
2. Tech Stack (The “AI-First” Pivot) Infosys is heavily focused on “Infosys Topaz” and Generative AI solutions. Knowing how to integrate LLM APIs such as OpenAI or Hugging Face gives a strong advantage. Learn Microservices architecture and understand why companies shift away from Monolithic systems.
3. Recent News (Strategic Talking Points) Mention Infosys Topaz during interviews to demonstrate awareness of AI initiatives. Infosys has expanded significantly in Europe and Nordic regions with major deals. The company is moving toward IP-led growth instead of traditional service-only models.
4. Eligibility & Packages **Role Package** SE ■3.6 – 4 LPA DSE (Digital Specialist Engineer) ■6.25 – 6.5 LPA SP (Specialist Programmer) ■9.5 – 13 LPA No active backlogs is preferred, but cleared backlogs can be explained positively. Strong coding performance directly impacts SP/DSE role selection.
5. Actionable Prep Plan for a 3rd Year Student Months 1–2 (Foundation) Master Data Structures: Arrays, Strings, Searching, Sorting, Linked Lists, Trees. Focus heavily on String Manipulation and Array-based logic problems. Month 3 (The “Gold” Project) Build one full-stack application. Examples: Smart Recruitment Portal, AI-based Expense Tracker. Publish and document the project on GitHub. Month 4 (Aptitude & Speed) Practice Vedic Maths shortcuts and Logical Syllogisms. Improve speed to solve questions within 60–90 seconds. Month 5 (Mock Interviews) Improve communication and explanation skills. Practice explaining logic clearly and confidently in English. Final Advice Consistency, problem-solving ability, communication, and project quality are the key differentiators for Infosys recruitment in 2025–2026.
